DIGITAL PORTFOLIO webbee1991.github.io/Thamil-s/ ↗

PROFESSIONAL PROFILE

Business analysis and continuous improvement professional with 12+ years across customer experience, logistics operations and process optimisation. Since 2019, focused on translating customer friction, manual effort and process gaps into requirements, automation opportunities and cross-functional improvements. Works with operations, execution, automation and product teams from discovery and solution scoping through UAT, rollout, adoption and outcome tracking.

CORE DELIVERY CAPABILITIES

Business analysis: AS-IS / TO-BE mapping · Requirements & BRDs · Root-cause analysis · Process controls

Delivery ownership: Opportunity assessment · Stakeholder alignment · UAT · Rollout readiness · Value tracking

Decision support: CPS and contact analysis · Voice of Customer · Power BI reporting · Predictive insights

EXPERIENCE

Senior Continuous Improvement Specialist – Product

MAERSK · CHENNAI · APR 2019 – PRESENT

- **Opportunity to implementation.** Identify avoidable customer contacts, repetitive activities and automation candidates; define requirements and expected value with execution and automation teams, then coordinate UAT, deployment and adoption.
- **Customer experience improvement.** Analyse Contacts per Shipment (CPS), email/contact drivers, reopen patterns and NPS/CSAT insights to prioritise process fixes, digital self-service adoption and platform enhancements with product owners.
- **Business analysis and governance.** Document process maps, BRDs, SOPs, acceptance scenarios, action trackers and risk/dependency logs; connect stakeholders, remove blockers and monitor delivery progress.
- **Data-informed performance.** Build Power BI dashboards and analytical reporting for productivity, quality, customer-contact trends and operational governance; turn signals into practical next-step decisions.
- **Operational guidance.** Support workload prioritisation, coaching, quality reviews and leadership communication while undertaking acting team-lead responsibilities.

SELECTED TRANSFORMATION PROJECTS

- **AI-assisted response automation |** Led business-side coordination for contextual email-response recommendations. Mapped resolution needs, supported testing and implementation with technology teams, and retained human review before customer replies.
- **Chatbot V1 and V2 |** Built V1 around reusable SME process knowledge for common operational queries; partnered with engineering to extend V2 into contextual support and repetitive-task assistance.
- **Productivity management platform |** Developed Power Apps activity tracking integrated with Power BI to make productive/non-productive time, workload, AHT and operational performance more visible.
- **Contact reduction and CPS governance |** Used contact-driver investigation and root-cause analysis to coordinate CX process corrections, self-service interventions and platform opportunities with execution teams and product owners.

FURTHER BUSINESS IMPROVEMENT CONTRIBUTIONS

- **Customer loyalty and service quality.** Analyse NPS/CSAT feedback, customer-journey pain points and chat/email/call quality signals; support corrective actions, proactive retention and service-recovery follow-ups.
- **Billing and payer processes.** Clarify payer-related workflows, document SOPs, investigate process and hand-off issues, and support efforts to improve invoice quality and timeliness.
- **Commercial service opportunities.** Identify customer needs for additional free-time options, inland movement support and paid end-to-end assistance; connect opportunities to appropriate teams.
- **Automation pipeline governance.** Track opportunities, expected value, owners, priorities, dependencies and implementation milestones; follow through on business validation and adoption.

EARLIER CAREER

Senior Specialist – Customer Onboarding & Operations

MAERSK · CHENNAI · JUN 2017 – MAR 2019

- **North America customer onboarding.** Supported booking-service transitions, resolved complex process queries, guided team members, worked with regional stakeholders and helped customers adopt digital self-service channels.

Customer Support Executive

SITEL INDIA · CHENNAI · JAN 2016 – APR 2017

Delivered voice-based AVG Antivirus troubleshooting and customer support, balancing technical resolution with customer satisfaction.

Customer Support

HCL · CHENNAI · FEB 2014 – DEC 2015

Handled customer queries via email and chat across orders, billing and account management.
